

BOTTLESMOKER "BEFORE CIRCUS OVER"

Málaga, September 24th, 2008

PRESS RELEASE

NeovinyL returns. After passing a period occupied in new projects we return to the scene with a new release from that we are delighted. We have travelled even the deepest of the Oriental Indonesia, to offer you this LP of our flaming new artists: Bottlesmoker.

Bottlesmokers is a couple of young producers from Bandung, West Java (Indonesia), who enclosed in their bedroom, dedicate the hours to playing close to their keyboards and toys to create simple sounds and to make what they catalogue as "Bedroom music".

"Before Circus Over" is the title that gives name to this new delivery of the NeovinyL saga, an excellent work composed of tracks to half a way between electropop and downtempo. Eight songs full of life, and melodies that detach happiness there where they sound. A release for that we wait marks the difference, in our short history as netlabel.
